I understand this application will become part of my annuity contract. I have read the completed application and confirm that the information it contains is true and correct, to the best of my knowledge and belief. However, these statements are representations and not warranties. If this application has a Joint Owner, Protective Life may accept instructions from either Owner on behalf of both Owners.

I have read and understand the "Annuity Buyer's Guide" and the annuity Disclosure Statement provided to me by my financial advisor.

I believe this annuity meets my current needs and financial objectives.

**I understand that I am purchasing an indexed annuity. I understand the product features, interest crediting elements, and the indexes upon which the interest calculations will be based. Any interest credited to an indexed strategy depends in part upon the performance of the strategy's independent index. I understand the value of the contract will be affected by the index, but the contract does not participate directly in any index or stock investment. I also understand that during the withdrawal charge period, withdrawals from the contract that exceed any available free-withdrawal amount are subject to a limited market value adjustment and a withdrawal charge.**

## DISCLOSURE STATEMENT

This document reviews important points to consider before you buy a *Protective Asset Builder II* annuity. It is a summary document and not part of your contract with us. The contract governs your rights and our obligations.

### WHAT IS AN ANNUITY?

An annuity is a legal contract between you and an insurance company. An annuity should be used to accumulate money for *long-term* financial goals, like retirement. An annuity is the only financial product that can create a stream of income payments *guaranteed to last as long as you live*.

The *Protective Asset Builder II* is a flexible premium deferred indexed annuity. *Flexible premium* means that you may – but are not required to – send us additional premium. The minimum initial premium required to issue a contract is \$10,000. Each additional premium must be at least \$1,000. The maximum total premium we will accept is \$1 million per contract. In a *deferred annuity*, the income payments you receive begin in the future. The interest credited to an *indexed annuity* is determined – in part – by the performance of a reference index associated with the indexed interest crediting strategy. You do not pay taxes on the interest earned until the money is actually paid to you.

### DEFINITIONS

Annuitant – The person whose life is used to determine the income payments.

Annuity Date – The date on which the income payments begin.

Beneficiary – The person who will receive the death benefit if the owner dies before the annuity date.

Crediting Period – The period of time, measured in contract years, over which the change in a reference index is measured to calculate the index performance.

Owner – The person who purchases a contract, and the person from whom we accept instructions regarding the contract.

Rate Guarantee Period – The period of time, measured in contract years, over which a declared strategy rate is guaranteed.

### HOW DOES MY ANNUITY EARN INTEREST?

You allocate purchase payments (premium) to one or more *interest crediting strategies*, which are specific, defined methods used to calculate interest. The *initial* purchase payment includes all payments we receive within 14 days of the 'origination date', which is the date you purchase a contract. The initial purchase payment also includes amounts that result from an exchange, transfer or rollover from another annuity contract that we receive within 60 days of the origination date. Any portion of an initial purchase payment is applied directly to the interest crediting strategies on the day we receive it. *Additional* purchase payments are applied to a 'holding account' and remain there until the end of the current contract year, at which time the entire holding account value is transferred to the interest crediting strategies according to the current contract allocation instructions. We credit interest to the holding account at rates we declare, but it *is not* an interest crediting strategy.

- *Fixed Interest Crediting Strategy* – Interest is credited daily at a fixed annual rate that we declare in advance each contract year. The declared rate for this strategy will not be less than the non-forfeiture interest rate shown in your contract.
- *Point-to-Point with Rate Cap Indexed Interest Crediting Strategy* – The interest rate is based on the performance of the S&P 500 Index over each crediting period (currently, 1-year). If the index performance is 0% or more, the annual interest rate for the strategy is the *lesser* of the index performance or the interest rate cap. We declare the interest rate cap in advance of each rate guarantee period. The interest rate cap will not be less than 1%.

We currently offer rate guarantee periods of one year and of the same number of years as the contract's withdrawal charge period.

- Point-to-Point with Trigger Rate Indexed Interest Crediting Strategy – The interest rate is based on the performance of the S&P 500 Index over each crediting period (currently, 1-year). If the index performance is 0% or more, the interest rate for the strategy is the trigger interest rate. We declare the trigger interest rate in advance of each rate guarantee period. It will not be less than 1%.
- Point-to-Point with Participation Rate Indexed Interest Crediting Strategy – The interest rate is based on the performance of the strategy's index over each crediting period. It is determined by multiplying the index performance by the participation rate. A positive result is the interest rate for that crediting period. (If the result of that calculation is 0% or negative, no indexed interest will be credited for that crediting period.) We declare the participation rate in advance of each rate guarantee period, subject to the minimum participation rate set when your contract was issued.

We currently offer three versions of this strategy:

- S&P 500 Index: 1-year crediting period, 1-year rate guarantee period
- J.P. Morgan Mojave Index: 1-year crediting period, 1-year rate guarantee period
- Citi Flexible Allocation 6 Excess Return Index: 2-year crediting period, 2-year rate guarantee period
- Crediting Interest – Unlike fixed interest – which is credited daily to the Fixed Interest strategy (and the Holding Account, if applicable) – *indexed interest* is credited in arrears, and only on the strategy value at the end of a crediting period. No interest is earned on amounts withdrawn from an indexed strategy before the end of its crediting period.
- Performance – Performance is the percentage change in the reference index from the beginning to the end of each crediting period. Negative performance does not reduce the contract value, but simply results in no indexed interest being credited at the end of that crediting period.
- You may re-allocate contract value among the interest crediting strategies, but only on contract anniversaries that correspond with the end of a rate guarantee period.
- Any time before the annuity date, the contract value is equal to the sum of all purchase payments and all interest credited, minus withdrawals from the contract (including applicable withdrawal charges and any market value adjustment), and minus any applicable premium tax. *The contract value cannot go down unless withdrawals are taken.*
- To protect against prolonged periods of negative performance (when no indexed interest is credited) the annuity provides a minimum surrender value. When the contract is terminated by a surrender, death of an owner, or on the annuity date, the contract value will not be less than the sum of:
  - a) 87.5% of your aggregate purchase payments accumulated at the non-forfeiture interest rate shown in your contract; minus,
  - b) each withdrawal accumulated at that non-forfeiture interest rate.

## HOW DO I GET MONEY OUT OF MY ANNUITY BEFORE THE INCOME PAYMENTS BEGIN?

The *Protective Asset Builder II* is designed to grow your contract value during the accumulation period and on the annuity date, convert the contract value to a regular, predictable stream of income payments according to your instructions. However, you may access all or a portion of the contract value before the annuity date by taking a withdrawal, or surrendering the annuity.

- Free-Withdrawal Amount – Each contract year, you may withdraw up to 10% of the contract value as of each withdrawal date, minus the free-withdrawal amount previously withdrawn during that contract year, if any, without having the market value adjustment ("MVA") applied or incurring a withdrawal charge. (During the 1<sup>st</sup> contract year, you may withdraw up to 10% of the initial purchase payment.) Aggregate withdrawals during any contract year that exceed the free-withdrawal amount are subject to the MVA and the withdrawal charge, which are described below.
- Market Value Adjustment ("MVA") – The market value adjustment ("MVA") adjusts the amount we deduct from the contract value to satisfy your withdrawal request. When it applies, it can increase, decrease, or have no effect on that amount. Including an MVA in the contract means you participate in changes in market interest rates if you request a withdrawal (in excess of the free-withdrawal amount) during the contract's withdrawal charge period.

We calculate the MVA according to the formula described in your contract. In general, however, if interest rates are *higher* on the withdrawal date than on the contract's issue date, the MVA will *increase* the amount we deduct from the contract value to satisfy your withdrawal request. Conversely, if interest rates are *lower* on the withdrawal date than on the issue date, the MVA will *decrease* the amount we deduct from the contract value. The MVA formula also includes a component that reduces the impact of the MVA over time. So, if all other things are equal, a withdrawal taken later in the withdrawal charge period will have a smaller MVA than the same withdrawal taken earlier.

- **Withdrawal Charge** – You select the contract's withdrawal charge period when you purchase the annuity. Longer withdrawal charge periods are typically associated with the opportunity to earn interest at higher rates. The *Protective Asset Builder II* offers a range of withdrawal charge periods, but all periods in the range may not be available at all times. Your financial professional will advise you about the withdrawal charge periods currently being offered.

The withdrawal charge is a set percentage of the net reduction to the contract value needed to satisfy your withdrawal request (in excess of the free-withdrawal amount), including the MVA described. The withdrawal charge **increases** the total amount we deduct from the contract value.

- **Withdrawal Charge Percentage** – For any withdrawal charge period you select, the withdrawal charge percentage that applies each contract year is a function of the number of complete contract years that have elapsed since the contract issue date.

# of Complete Years Elapsed Since the Contract Issue Date	0	1	2	3	4	5	6	7	8	9	10+
5-Year Withdrawal Charge Period	9%	8%	7%	6%	5%	0%	0%	0%	0%	0%	0%
7-Year Withdrawal Charge Period	9%	8%	7%	6%	5%	4%	3%	0%	0%	0%	0%
10-Year Withdrawal Charge Period	9%	9%	8%	7%	6%	5%	4%	3%	2%	1%	0%

- **MVA and Withdrawal Charge Waivers** – Neither the market value adjustment nor the withdrawal charge apply after the withdrawal charge period for your contract expires. Subject to state approval, we also waive any MVA and withdrawal charge that would otherwise apply if, after the contract issue date, you or your spouse meet the qualifying conditions described in the contract and...

- enter a nursing home or are diagnosed with a terminal illness that is expected to result in death within 12 months; or
- become unemployed.

Finally, the MVA and withdrawal charge do not apply when we pay the death benefit or when, on the annuity date, the contract value is withdrawn, surrendered or applied to an annuity option.

**All withdrawals reduce the contract value, death benefit and future income payments. Withdrawals are subject to income tax and may be subject to a 10% federal tax penalty if taken before age 59½. You should consult a professional to assess the impact to your personal tax situation of a withdrawal from the contract.**

#### IS THERE A DEATH BENEFIT?

- **Death Benefit** – The contract pays a death benefit to the beneficiary if an owner dies before the annuity date. The death benefit is the greater of the contract value or the minimum surrender value, described above.
- **Payment of the Death Benefit** – The Internal Revenue Code controls how the death benefit must be paid. The death benefit may be taken in one lump sum immediately, and the contract will terminate. If not taken immediately, the death benefit will continue to earn interest according to the terms of the contract and must be fully distributed either: a) within 5 years of the owner's death; or, b) over the life (or life expectancy) of the beneficiary with payments beginning within one year of the owner's death.
- **Additional Option for a Spouse** – If the deceased owner's spouse is the **sole primary beneficiary**, instead of taking the death benefit, the surviving spouse may continue the contract and become the owner. Note, however, that **unmarried** civil union or domestic partners are not treated as spouses under **federal** law. Therefore, this 'spousal continuation' option is not available even though these relationships may be fully recognized in your state.

#### HOW DO I BEGIN INCOME PAYMENTS?

- **Annuity Date** – On the annuity date, you may apply the contract value (or the minimum surrender value, if greater) to an annuity option and begin the income payments. Or, you may take that amount in a lump sum. The latest annuity date is the oldest owner's or annuitant's 95<sup>th</sup> birthday, but you may choose an earlier date, provided it occurs after the first contract anniversary.
- **Income Payments** – You customize the income payments by selecting the annuity option and the payment frequency. Once established, however, your income payments may not be altered or surrendered. Two basic annuity options are available: Income payments for a specified time (called a "certain period"); or, Income payments for life, with or without a certain period.

- Payment Frequency – Income payments must occur at least once a year, but you may have them made monthly, quarterly or semi-annually. More frequent payments will result in slightly lower annual amounts than less frequent payments. So, for example, the sum of 12 monthly payments will be a little bit less than the sum of 4 quarterly payments which, in turn, will be smaller than a single annual payment.
- Payments for a Certain Period – We will make periodic income payments for the entire certain period you select. No certain period may be less than 10 years, unless we agree to a shorter period.
- Payments for Life with or without a Certain Period – Income payments can be based on the life of either one or two living persons called 'annuitants'. Income payments under a 'single life' annuity option end upon the death of the annuitant. Income payments under a 'joint life' option end when the last surviving annuitant dies. If you select a joint life option, you may – but are not required – to specify a reduction in the income payments to a surviving annuitant.

You may add a certain period to either a single or joint life annuity option. If you do, the income payments are guaranteed for at least as long as the certain period you select, and continue beyond that time for as long as the annuitant (or if joint life, the last surviving annuitant) lives.

- Default Annuity Option – If you do not selected an annuity option, on the annuity date we will begin making monthly income payments for the life of the named annuitant with a 10-year certain period.
- Minimum Annuity Rates – The minimum annuity rates for the annuity options are described in the contract and guaranteed. If, at the time your income payments begin, we are offering higher rates for the same annuity option, your income payments will be based on the higher rates.

### HOW DOES THIS ANNUITY AFFECT MY FEDERAL INCOME TAXES?

*The information in this section is based on information you provide and our understanding of current federal tax law. Protective Life does not provide tax advice. You should always consult with a trusted professional to determine the impact of any financial transaction on your personal tax situation.*

- Tax Status – You have indicated your contract will be:  Non-Qualified  IRA, or other Tax Qualified Plan
- Deferred Taxation of Interest Earned – An annuity contract is a tax deferred financial instrument. You are not taxed on the interest credited to the contract until it is paid to you. At that time, you will pay tax at the same rate as other ordinary income. You may also be subject to a 10% federal tax penalty if the withdrawal occurs before age 59½, unless an exception applies (e.g., death, disability, substantially equal periodic payments, etc.).
- Tax-Qualified Plans – If this annuity is a traditional IRA (or other tax qualified plan), you will pay taxes on the entire amount withdrawn because – generally – the money that funds the contract has not yet been taxed. *These plans provide the same tax deferral as an annuity contract*, so the annuity *does not* provide any additional tax benefits. However, an annuity may have other valuable features that enhance these plans.
- Tax-Free Exchanges – You can exchange one tax-deferred annuity for another without paying taxes on the earnings when you made the exchange. Before you do, compare the benefits, features, and costs of the two annuities. You may be assessed a charge by the company who issued your current annuity, and you may be subject to company charges under the new annuity if you take withdrawals from it.

### WHAT ELSE SHOULD I KNOW ABOUT THIS ANNUITY?

- Fees and Charges – We do not charge a fee to issue a contract, and there are no ongoing or annual fees associated with owning it. The market value adjustment and withdrawal charge (explained above) are the only charges we will assess, and you may avoid them by not withdrawing more than the free withdrawal amount in any contract year during the withdrawal charge period.
- Dividends – This contract does not pay dividends, nor does it share in our surplus or profits.
- Contract Changes – We may change the contract to comply with any federal or state statutes, rules or regulations. If this occurs, we will notify you about the changes in writing.
- Sales Commission – We pay a commission to the financial professional who sells the annuity to you. In some cases, the commission paid for selling this annuity may be more than the commission earned by selling another product.
- Right to Cancel – If you purchase a contract, you may cancel it for any reason within a specified number of days (not less than 10) after the date you receive it by returning it to us or the person who sold it to you with a written request for cancellation. If cancelled, we will promptly return all the money you paid to purchase the contract.

**Product features and availability may vary by state. All benefits and guarantees are subject to the claims paying ability of Protective Life Insurance Company. You should consult with your financial professional and seek competent tax advice prior to making any financial or investment decision.**

## IMPORTANT NOTICE: REPLACEMENT OF LIFE INSURANCE OR ANNUITIES

This document must be signed by the applicant and the insurance producer/agent, if there is one, and a copy left with the applicant.

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A replacement occurs when a new life insurance policy or annuity contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing life insurance policy or annuity contract, or an existing life insurance policy or annuity contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A financed purchase occurs when the purchase of a new life insurance policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the life insurance policy values, including accumulated dividends, of an existing life insurance policy, to pay all or part of any premium or payment due on the new life insurance policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interests. You will pay acquisition costs and there may be surrender costs deducted from your life insurance policy or annuity contract. You may be able to make changes to your existing life insurance policy or annuity contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing life insurance policy and may reduce the amount paid upon the death of the insured.

We want you to understand the effects of replacements and ask that you answer the following questions and consider the questions on the back of this form.

1. Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer, or otherwise terminating your existing life insurance policy or annuity contract?  Yes  No
2. Are you considering using funds from your existing policies or annuity contracts to pay premiums due on the new life insurance policy or annuity contract?  Yes  No

If you answered "yes" to either of the above questions, list each existing life insurance policy or annuity contract you are contemplating replacing (include the name of the insurer, the insured or annuitant, and the life insurance policy or annuity contract number if available) and whether each life insurance policy or annuity contract will be replaced or used as a source of financing:

INSURER NAME	ANNUITY CONTRACT OR LIFE INSURANCE POLICY #	INSURED OR ANNUITANT	REPLACED (R) OR FINANCING (F)
1. _____	_____	_____	_____
2. _____	_____	_____	_____
3. _____	_____	_____	_____

Make sure you know the facts. Contact your existing company or its insurance producer/agent for information about the old life insurance policy or annuity contract. If you request one, an in-force illustration, life insurance policy summary or available disclosure documents must be sent to you by the existing insurer. Ask for and keep all sales material used by the insurance producer/agent in the sales presentation. Be sure that you make an informed decision.

The existing life insurance policy or annuity contract is being replaced because \_\_\_\_\_.

I certify that the responses herein are, to the best of my knowledge, accurate:

\_\_\_\_\_  
Applicant's Signature and Printed Name

\_\_\_\_\_  
Date

\_\_\_\_\_  
Insurance Producer's/Agent Signature and Printed Name

\_\_\_\_\_  
Date

I do not want this notice read aloud to me. \_\_\_\_ (Applicants must initial only if they do not want the notice read aloud.)

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing life insurance policy or annuity contract and the proposed life insurance policy or annuity contract. One way to do this is to ask the company or insurance producer/agent that sold you your existing life insurance policy or annuity contract to provide you with information concerning your existing life insurance policy or annuity contract. This may include an illustration of how your existing life insurance policy or annuity contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or annuity contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

#### PREMIUMS:

Are they affordable?

Could they change?

You're older – are premiums higher for the proposed new life insurance policy?

How long will you have to pay premiums on the new life insurance policy? On the old life insurance policy?

#### POLICY VALUES:

New policies usually take longer to build cash values and to pay dividends.

Acquisition costs for the old life insurance policy may have been paid; you will incur costs for the new one.

What surrender charges do the policies have?

What expense and sales charges will you pay on the new life insurance policy?

Does the new life insurance policy provide more insurance coverage?

#### INSURABILITY:

If your health has changed since you bought your old life insurance policy, the new one could cost you more, or you could be turned down.

You may need a medical exam for a new life insurance policy.

(Claims on most new policies for up to the first two years can be denied based on inaccurate statements.

Suicide limitations may begin anew on the coverage.)

#### IF YOU ARE KEEPING THE OLD LIFE INSURANCE POLICY AS WELL AS THE NEW LIFE INSURANCE POLICY:

How are premiums for both policies being paid?

How will the premiums on your existing life insurance policy be affected?

Will a loan be deducted from death benefits?

What values from the old life insurance policy are being used to pay premiums?

#### IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

Will you pay surrender charges on your old annuity contract?

What are the interest rate guarantees for the new annuity contract?

Have you compared the annuity contract charges or other life insurance policy expenses?

#### OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

What are the tax consequences of buying the new life insurance policy?

Is this a tax-free exchange? (See your tax advisor.)

Is there a benefit from favorable "grandfathered" treatment of the old life insurance policy under the Federal Internal Revenue Tax Code?

Will the existing insurer be willing to modify the old life insurance policy?

How does the quality and financial stability of the new company compare with your existing company?

#### WHEN A REPLACEMENT OCCURS, YOU HAVE A THIRTY (30) DAY RIGHT TO RETURN THE CONTRACT

Return the contract within thirty (30) days of the delivery of the contract and receive an unconditional refund of premiums paid, including any policy fees or charges.

In the case of a variable or market value adjustment policy or contract, receive a refund of the cash surrender value provided under the contract plus any fees and charges deducted from the gross premiums paid.

## Introduction

The Kentucky Department of Insurance is pleased to offer this “Annuity Buyer’s Guide” as an aid to assist you in determining your insurance needs and the products that will fill those needs. This guide contains only a brief description of various annuity products. For specific information about a particular type of annuity, you should consult an agent. This guide is not meant to offer legal, financial or tax advice. You may want to consult independent advisors for those specific questions. This guide does not endorse any company, agent or policy type.

### What is an Annuity?

An annuity is a contract where an insurance company promises to make payments to an annuitant over a specified period of time or for life. One of the purposes for an annuity is to make sure a person does not outlive his income. An annuity is a type of insurance to protect against the risk of financial hardship during retirement.

There are three participants in an annuity contract: the owner, the annuitant and the beneficiary. Most of the time, the annuitant and the owner are the same person, but it is not required. The owner is the purchaser of the annuity, pays the premiums and has the right to surrender the annuity. The owner also is responsible for any taxes due upon surrender or payout and is usually the person who names the beneficiary of the contract. The annuitant is the person whose age and life expectancy is going to be used to calculate the benefits of the annuity and who will receive the annuity payments. The beneficiary receives the death benefit upon death of the annuitant or the owner.

### Various Types of Annuities

**Fixed annuity** – This type of annuity accumulates interest on the funds deposited into the annuity on a fixed rate basis. Every fixed annuity has a current interest rate and a minimum guaranteed interest rate. The current interest rate will always be equal to or higher than the minimum guaranteed interest rate. Although this varies from company to company and contract to contract, the current interest rate is declared on an annual basis, usually after an initial guarantee period. With a fixed annuity, the insurance company assumes the risk of paying at least the minimum guaranteed interest rate.

**Variable annuity** – Different than a fixed annuity, a variable annuity pays varying rates of interest on the funds placed inside the annuity based upon the investment options chosen by the annuity owner. If the investment choices do well, the annuity will do well. If the investment choices do poorly, the annuity will not grow as well or even could lose value. Because the

growth of a variable annuity is not guaranteed by the insurance company, the contract holder assumes the risk.

**Immediate annuity** – This type of annuity begins paying a benefit very soon, usually within 30 days to one year after it is purchased, and usually requires a lump sum payment.

**Indexed annuity** – This is a fairly new product in the annuity market. Indexed annuities pay an interest rate that is tied to the performance of a common or well-known index such as the S&P 500, the Russell 1000 or the S&P 100. The growth of an indexed annuity is based upon the participation rate of the index it is tied to. For example, if an indexed annuity has a defined participation rate of 70 percent and the index it follows goes up by 10 percent, the annuity's accumulation value will increase by 7 percent (10 percent increase times the 70 percent participation rate). On the downside, most indexed annuities specify a "floor" that the annuity growth rate cannot go below or offer a minimum interest rate. Typically this minimum rate is 1 percent to 3 percent.

## Things Common to all Annuities

There are two distinct phases to an annuity - the accumulation phase and the payout phase. The accumulation phase is the first phase where all the premiums are paid into the annuity and the money grows tax-deferred. The second phase is the payout phase, which is when the annuity actually starts to pay the benefits to the annuitant. There are several payout options; a few of these options will be discussed in the following section. Make sure your agent goes over each option with you thoroughly so that you choose the one most appropriate for your needs. It is very important to understand that once a payout option is chosen and you start receiving payments, that option cannot be changed.

### Examples of Payout Options (Settlement Options)

- Life income (no refund) – Pays an income as long as the annuitant is alive. Payments stop when the annuitant dies.
- Life income with period certain (10, 15 or 20 years) – Pays an income as long as the annuitant is alive. If the annuitant dies before the period certain has expired, payments are made to the beneficiary for the balance of the period.
- Life income with installments (refund) – This option provides a monthly annuity payment during the lifetime of the annuitant with a guarantee that payments will be made for a certain number of months (not necessarily for the annuitant's full lifetime). The number of months is determined by dividing the accumulated amount of the annuity by the amount of the first monthly annuity payment. Only the number of months is guaranteed so there is no guarantee of a full refund.

**The following payout options assume there are two individuals that will be receiving benefits from the annuity.**

- Joint and full to survivor (no refund) – This option pays an income as long as one or more annuitant is living. Payments stop when both annuitants are deceased.
- Joint and 2/3 to survivor (no refund) – This option pays an income while both annuitants are alive. When one dies, 2/3 income payments continue during the survivor's lifetime. Payments stop when the second annuitant dies.
- Joint and full to survivor with period certain (10, 15 or 20 years) – Pays an income while at least one annuitant is alive. If both annuitants die before the specified period expires, payments of the balance of the period certain continue to the beneficiary.
- Joint and full to survivor with installments (refund) – This option pays a monthly payment during the lifetime of the annuitant with a guarantee that payments will be made for a certain number of months. The number of months is determined by dividing the accumulated amount of the annuity by the amount of the first monthly annuity payment. Only the number of months is guaranteed so there is no guarantee of a full refund.
- Joint and 2/3 to survivor with period certain (10, 15 or 20 years) – Pays an income while both annuitants are living. When one dies, 2/3 of the income payment continues during the survivor's lifetime. If the second annuitant dies before the period certain expires, the 2/3 payment amount continues to the beneficiary for the balance of the period.

## **Guaranteed Living Benefits**

Guaranteed living benefits may be found as a provision in an annuity contract or added by rider endorsement or amendment to an annuity contract. There are 3 different types and can be very complicated. One important thing to consider is whether or not the particular contract you are considering purchasing allows these benefits to be assignable or not. Be sure to read your contract carefully before purchasing. These different guarantees provide a downside protection to an annuity contract. They are tools to aid in the management of risk by transferring different risks from the buyer to the insurer. There are different types of guarantees defined as follows:

1. **Guaranteed Minimum Withdrawal Benefits (GMWB)** – guarantees the return of at least the owner's investment, or that investment plus an interest component (the benefit base) through periodic partial withdrawals of a certain percent or less of the benefit base, even if the annuity cash value falls to zero. There is usually no waiting period.

2. **Guaranteed Minimum Income Benefit (GMIB)** – guarantees that, regardless of actual policy performance, the buyer is assured a certain minimum future income, but only in the form of a regular annuity payout. It does not guarantee a lump sum.
3. **Guaranteed Minimum Accumulation Benefit (GMAB)** – unlike the other guarantees the GMAB guarantees a minimum lump sum at the end.

## **Will You be Penalized if You Withdraw Money From Your Annuity?**

In most cases “Yes.” However, some annuities have a provision that permits you to withdraw a certain amount each year, usually 10 percent of the annuity value, without having to pay a surrender charge. Please remember, even though you may not have to pay a surrender charge, there may be taxes to be paid on some or all of the money you withdraw. It is recommended that you consult a tax advisor or your annuity insurance company regarding the tax consequences before you make the withdrawal.

## **Important Things to Consider**

1. Review your own insurance needs and circumstances. Choose the kind of contract that has benefits that most closely fit your needs. Ask an agent or company to help you.
2. Be sure that you can handle the premium payments. Ask about any possible increases in premium amounts and what may cause an increase.
3. Don't sign an application until you review it carefully to be sure all the answers are complete and accurate.
4. Don't drop one contract and buy another without a thorough study of the new contract and the one you have now. Replacing your insurance may be costly.
5. Read your policy carefully. Ask your agent or company about anything that is not clear to you.
6. Periodically review your insurance program with your agent or company to keep up with changes in your income and your needs.
7. Do not buy a contract until you have a good understanding of how it works.

## **Are You Considering Dropping or Replacing an Existing Annuity Contract?**

If you are thinking about dropping or replacing an annuity contract, here are some things you should consider:

- If you decide to replace your contract, do not cancel your old contract until you have received the new one. You usually will have a minimum of 30 days to review your new contract to decide if it is what you want.

- It may be costly to replace a contract. There may be substantial surrender charges that you will incur. Remember that if you have held your existing contract long enough and no longer have to pay surrender charges, purchasing a new contract may start a new period of surrender charges.
- Consider consulting a tax advisor to see if dropping your contract could affect your income taxes.
- You may have valuable rights and benefits in your existing contract that are not in the new contract.
- If the annuity contract you have now no longer meets your needs, you may not have to replace it. You might be able to adjust your existing contract or purchase an additional contract to get the coverage or benefits you now need.
- In all cases, if you are thinking of buying a new contract to replace your existing one, check with the agent or company that issued your existing contract. Before replacing, ask your agent or company for an updated illustration (in-force illustration). Check to see how the contract has performed and what you should expect in the future based on the guarantees.

## **How Can You Find Missing Contracts?**

If the deceased's estate went through probate, there is a chance that the contract might have been listed as an asset.

Begin by contacting insurance companies. Try to narrow your search as much as possible. For example, start with those companies most prominent where the deceased lived or worked. Contact the benefits coordinator at the deceased's place of employment. Remember, unless you are the beneficiary, the company is not required to offer any information. Try to provide as much information as possible, including the deceased's name and any aliases, Social Security number, date of birth, etc.

Ask the estate's executor to request copies of all bank statements and other records. If a check has been written or an automatic payment has been made to an insurance company, this might provide a lead.

Contact the deceased's insurance agent for homeowners, renters, or auto insurance. Although he may not have sold your friend or relative an annuity contract, many agents keep records of their client's insurance purchases.

## **Final Points to Consider**

Remember to read your annuity contract carefully when you receive it. Ask your agent or insurance company to explain anything you don't understand. If you have a specific complaint

or can't get the answers you need from the agent or company, contact your state insurance department.

## Insurer Rating Organizations

Other sources of information related to the financial strengths of companies are insurance rating organizations. Some of these are A.M. Best, Fitch Ratings, Moody's Investors Service, Standard and Poor's, and Weiss Ratings Inc. You can use these sources to help you research and determine which companies you would like to contact about your insurance needs. The Kentucky Department of Insurance can provide you with ratings from A.M. Best or you can contact the companies directly to get information about their ratings.

## Other Important Terms

**Amendment, Endorsement or Rider** – forms that are used to effect contract changes requested by an owner to an individual annuity contract.

**Annuitize** - This is a term used when the owner elects to convert the lump sum of the accumulated value of the annuity contract to begin receiving a series of payments.

**Assignment** – transfer of rights under an annuity contract to another person or business in exchange for partial or total ownership rights to the contract.

**Guaranteed Living Benefits** - a contract provision or added to a contract by rider. These different guarantees provide a downside guarantee to an annuity contract. They are tools to aid in the management of risk by transferring risk from the owner to the insurer. There are different types of guarantees, as follows:

- 1. Guaranteed Minimum Withdrawal Benefit (GMWB)** – the benefit guarantees the return of at least the owner’s investment, or that investment plus an interest component (the benefit base) through periodic partial withdrawals of a certain percent or less of the benefit base, even if the annuity cash value falls to zero. There is usually no waiting period.
- 2. Guaranteed Minimum Income Benefit (GMIB)** – the benefit guarantees that, regardless of actual contract performance, the owner is assured a certain minimum future income, but only in the form of a regular annuity payout. It does not guarantee a lump sum.
- 3. Guaranteed Minimum Accumulation Benefit (GMAB)** – unlike the other guarantees the GMAB guarantees a minimum lump sum at the end.

**Long-Term Care Riders** - a provision which may or may not require an extra premium that allows for the reduction of the annuity value based upon long term care expenses without applying surrender charges. A benefit above the value of the annuity also may be purchased for an additional cost.

**Market Value Adjustment** – increase or decrease in the surrender charge of the annuity contract depending on the current financial markets. The cash value is adjusted upward if the policy interest rate is greater than the current interest rate on new money and thus, if interest rates decline after the date the annuity contract is purchased, the surrender charge decreases. However, if the cash value is adjusted downward if the policy interest rate is less than the current interest rate on new money and thus, if interest rates rise after the purchase date of the annuity contract, the surrender charge increases.

**Tax-Free Exchange (1035 Exchange)** – under Section 1035 of the Internal Revenue Code stipulations that the exchange of one life insurance policy for another life insurance policy generally will not result in a recognized gain for the purposes of federal income tax purposes to the policy owner. The insured must be the same on both policies. Life policies can be exchanged for life policies, life policies can be exchanged for annuities and annuities can be exchanged for annuities. Annuities

cannot be exchanged for life policies. With annuities, the annuitant must be the same on both contracts.

**Ten Day Free Look** – a contract provision notifying purchasers of new insurance that they have ten days after delivery of the annuity contract to inspect it and if not satisfied, return it to the agent or company for a full refund of all premiums paid.

**Pre-Determined Death Benefit  
Payout Election Form**

<b>Part II</b>	<b>Certification</b>
Under penalties of perjury, I certify that:  1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and 2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and 3. I am a U.S. citizen or other U.S. person, and 4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.	
<b>Certification instructions.</b> You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN.
