## NOTICE AND CONSENT FOR AIDS VIRUS (HIV) TESTING

Acquired Immunodeficiency Syndrome (AIDS) is a life-threatening disorder of the immune system, caused by a virus, HIV. The virus is transmitted by sexual contact with an infected person, from an infected mother to her newborn infant, or by exposure to infected blood (as in needle sharing during IV drug use). Persons at high risk of contracting AIDS include males who have had sexual contact with another man, intravenous drug users, hemophiliacs, and sexual contacts with any of these persons. AIDS does not typically develop until a person has been infected with HIV for several years. A person may remain free of symptoms for years after becoming infected. Infected persons have a 25 percent to 50 percent chance of developing AIDS over the next 20 years. Symptoms which may develop include fever (including night sweats), weight loss, swollen lymph glands, fatigue, diarrhea and white spots or unusual blemishes in the mouth.

- PURPOSE OF THE HIV TEST.** To evaluate your insurability, the Insurer named above, Protective Life Insurance Company, has requested that you provide a sample of your blood, urine or other body fluids for testing and analysis to determine the presence of human immunodeficiency virus (HIV) antibodies or antigens. This is not a test for AIDS; AIDS can only be diagnosed by medical evaluation.
- PRE-TEST COUNSELING.** Many public health organizations have recommended that before taking an AIDS-related test, a person seek counseling to become informed concerning the implications of such a test.
- METHOD AND ACCURACY OF THE HIV TEST.** The HIV antibody test that is to be performed is actually a series of tests done by a medically accepted procedure. Your blood, urine or other body fluids sample will first be subjected to a test known as ELISA (enzyme-linked immunosorbent assay). If the result of this test is positive, the ELISA test will be repeated. If this repeat ELISA test is also positive your blood, urine or other body fluids specimen will then be subjected to another, more specific technique called the Western blot test, for confirmation. Your test result is considered positive only after positive results are obtained on two ELISA tests and a Western Blot test. The HIV antibody test is extremely accurate. However, in rare instances the test may be positive in persons who are not infected with the virus (a false positive). This may include persons who have not engaged in high risk behavior. These individuals are encouraged to seek retesting to help confirm the validity of the positive test. Additionally, the test may occasionally be negative in persons who are infected with HIV (a false negative) especially when the infection occurred recently; it takes at least 4-12 weeks for a positive test result to develop after a person is infected.
- CONFIDENTIALITY OF HIV TEST RESULTS.** All test results will be treated confidentially. They will be reported by the laboratory to the Insurer. When necessary for business reasons in connection with insurance you have or have applied for with the Insurer, the Insurer may disclose test results to others such as its affiliates, reinsurers, employees, or contractors. If the Insurer is a member of the MIB, LLC and if the test results for HIV antibodies/antigens are other than normal, the Insurer will report to the MIB, LLC a generic code which signifies only a non-specific laboratory test abnormality. If your HIV test is normal, no report will be made about it to the MIB, LLC. Other test results may be reported to the MIB, LLC in a more specific manner. The organizations described in this paragraph may maintain the test results in a file or data bank. There will be no other disclosure of test results or even that the tests have been done except as may be required or permitted by law or as authorized by you.
- POSITIVE TEST RESULTS.** Positive HIV antibody/antigen test results do not mean that you have AIDS, but that you are at significantly increased risk of developing AIDS or AIDS-related conditions. Federal authorities say that persons who are HIV antibody/antigen positive should be considered infected with the AIDS virus and capable of infecting others. Positive HIV antibody or antigen test results or other significant laboratory test abnormalities will adversely affect your application for insurance. This means that your application may be declined, that an increased premium may be charged, or that other policy changes may be necessary.
- NOTIFICATION OF HIV TEST RESULTS.** If the test results are negative, no routine notification will be sent to you. Positive or indeterminate test results will be provided to the private physician you indicate below:

\_\_\_\_\_  
Physician's Name

\_\_\_\_\_  
Physician's Address

In absence of a designated physician, positive or indeterminate test results will be communicated in accordance with the rules of your state. Some states will require notification of positive or indeterminate test results to the local health department in addition to or in lieu of notification to your private physician.

**CONSENT:** I have read and I understand this Notice and consent for HIV (AIDS)-Related Testing. I voluntarily consent to testing and disclosure as described above. I understand that I have the right to withdraw this consent prior to being tested and that I may request and receive a copy of this form. A photocopy of this form will be as valid as the original. In addition, I authorize Protective Life Insurance Company or its reinsurers to make a brief report of any personal health information to the MIB.

## IMPORTANT NOTICE REGARDING REPLACEMENT OF LIFE INSURANCE

Our agent is recommending that you purchase a life insurance policy from us. In connection with this purchase, you have indicated either as a result of his recommendation or at your own initiative, that you may terminate or change your existing policy issued by our company or another insurance company or that you may obtain a loan against your existing policy to pay premiums on the proposed policy. Any of these actions is a replacement of life insurance. This notice must be given to you. Please read this notice carefully.

Whether it is to your advantage to replace your existing insurance coverage, only you can decide. It is in your best interest, however, to have adequate information before a decision to replace your present coverage becomes final so that you may understand the essential features of the proposed policy and of your existing insurance coverage.

To this end, we are required to give you a Policy Summary including complete information on the proposed policy no later than when the policy is delivered to you. In addition, we are required to notify the insurance company that issued your existing policy (if not issued by our company). That company may then furnish you with additional information concerning your existing policy. If applicable, you may want to contact that company or its agent for further information and advice or discuss your purchase with other advisors. The information you receive will be of value to you in reaching a final decision.

If either the proposed policy or the existing insurance you intend to replace is a participating policy, you should be aware that dividends may materially reduce the cost of insurance and are an important factor to consider. Dividends, however, are not guaranteed.

After we have received your application and notified the other insurance company (if applicable), you will have twenty days from the date the proposed policy is delivered to you to cancel the policy issued on your application and receive back all payments you made to us.

## CAUTION

If, after studying the information made available to you, you decide to replace the existing life insurance with our life insurance policy, you are urged not to take action to terminate or alter your existing life insurance coverage until after you have been issued the new policy, examined it and have found it to be acceptable to you. If you should terminate or otherwise materially alter your existing coverage and fail to qualify for the life insurance for which you have applied, you may find yourself unable to purchase other life insurance or able to purchase it only at substantially higher rates.

**REQUIRED CALIFORNIA DISCLOSURE – For Universal Life Policies with No-Lapse Guarantees**

This policy is guaranteed to stay in force for a specified number of years as long as you meet the requirements of the Policy, including the Minimum Monthly Premium provision found in the policy contract. This provision is also known as a no-lapse guarantee, and a general description of the provision is included in the Narrative Summary section of the Basic Illustration.

While this policy provides a no-lapse guarantee, it may provide nonforfeiture benefits, such as cash surrender values, which are less than those that would be provided if the guarantee were issued as a separate policy, such as a term policy. If a separate term policy has higher nonforfeiture benefits, the premiums for the separate policy might be higher than the premiums for the no-lapse guarantee provided in this policy. Therefore, when considering the purchase of this policy, you should compare the value of higher nonforfeiture benefits, such as cash surrender values, versus the premiums required to keep your insurance coverage in force.

---

**REQUIRED SOUTH CAROLINA DISCLOSURE – For Universal Life Policies with No-Lapse Guarantees**

If there is no policy debt or partial surrenders, this policy is guaranteed to stay in force during the no lapse period as long as you have paid the required minimum premiums. This guarantee could be provided by a separate policy (such as a term policy). However, the nonforfeiture benefits (such as cash surrender value) in this policy may be significantly less valuable than those provided by the separate policy. So, if you fail to pay a premium within a specified period of time from its due date or otherwise cause this policy to terminate early, the benefits paid to you upon termination could be much less than would customarily be paid if provided by the separate policy.

When thinking about purchasing this policy, you should consider the tradeoff you may be making between having significantly smaller nonforfeiture benefits (such as a cash surrender value) available to you upon surrender of the policy versus the reduction in premium, if any, you may receive for not having these benefits.

---
