SUMMARY DISCLOSURE STATEMENT for ACCELERATED DEATH BENEFIT

Benefit:
Subject to the terms of this Benefit, we will pay a portion of the death benefit upon receiving proof that the insured is terminally ill. An accelerated death benefit can only be paid one time.

Consequences of Receiving Accelerated Death Benefit:
The receipt of an accelerated death benefit may be considered a taxable event under the Internal Revenue Code. The receipt of an accelerated death benefit may also affect eligibility to receive, or continue to receive Medicaid benefits, or other state or federal government benefits and entitlements. Before you elect to receive any accelerated benefits, you should consult with your tax advisor.

Amount You May Elect:
You may elect the amount of the accelerated death benefit to be paid. The limits are outlined in the Benefit but are generally limited to the lesser of 60% of the death benefit of the policy or $1,000,000.

When Eligible for Payment of Benefit:
You are entitled to receive the accelerated death benefit when we have determined that the insured is terminally ill and has a life expectancy of 6 months or less.

Notice and Proof of Qualifying Event:
We will require proof that the insured is terminally ill. The diagnosis must be made by a physician as defined in the Benefit. Any diagnosis must be the result of clinical, radiological, histological, or laboratory evidence of the terminal illness. We may require a second medical opinion by a physician of our choice at our expense. If there is a conflict of opinion, we reserve the right to make the final determination.

Effect of an Accelerated Death Benefit:
When you elect to receive an accelerated death benefit, it will be treated as a lien against your policy. We will charge you interest on the accelerated death benefit paid to you. The Accelerated Death Benefit does not have an effect on the Premium and/or Cost of Insurance Charges of the base policy.

The maximum interest rate we may charge you is the greater of:

1. The interest rate charged on policy loans; or
2. the current 90 day U.S. Treasury Bill rate in effect on the date that the accelerated death benefit is paid.

The maximum interest rate we will charge on the portion of the lien which is equal to the cash surrender value of the policy at the time the accelerated death benefit is requested will be no greater than the rate we charge on policy loans.

The accelerated death benefit will first be used to repay any outstanding policy loans and any unpaid accrued interest thereon. Your access to the cash surrender value of your policy, if any, will be limited to the excess of the cash surrender value over the lien. The death benefit will also be reduced by the amount of the lien. There will be no effect on any benefits not used to determine the accelerated death benefit.

Any irrevocable beneficiaries or assignees must send us a written consent to the accelerated death benefit payment. The written request must be in a form satisfactory to us.

Below is a **sample illustration** of the effect of an accelerated death benefit on a **UNIVERSAL LIFE** policy. This illustration shows the effect on the face amount of the policy before the accelerated death benefit is elected, immediately after the election is made and 12 months after the election is made (assuming the insured is still living). This illustration also assumes:

(1) the Face Amount is $100,000; (2) a 50% accelerated death benefit is elected; (3) we are charging 6% on the lien; and (4) for **UNIVERSAL LIFE**, the cash surrender value does not change after the accelerated death benefit is elected.

INFORMED CONSENT FOR THE HUMAN IMMUNODEFICIENCY VIRUS (HIV) ANTIBODY TEST

If you want to be tested to see if you have been infected with HIV, the virus that causes AIDS, please read the following and ask for an oral explanation of anything that you do not understand.

Purpose of Test: This test shows if you have antibodies to the Human Immunodeficiency Virus (HIV) that causes AIDS; if there are antibodies, you have been infected with HIV and can pass the virus on to others. This test can not determine if you have AIDS.

Blood Drawing: This HIV antibody test is a blood and/or a urine test. A sample of blood and/or urine will be collected from you and then analyzed by a laboratory to determine if it contains HIV antibodies.

Limitations: As with many laboratory tests, there is a possibility of inaccurate results. For instance, a false negative result could occur if you have recently been exposed to the virus but have not yet developed antibodies.

Potential Uses of Test: If your HIV antibody test results are known, it may help your doctor determine the medical care you need. It may also help you make personal decisions, such as whether to have children and how best to avoid the risk behaviors that transmit the virus. Your results are reported to the Montana Department of Health and Environmental Sciences (DHES), but only positives or negatives; no name is attached. If testing for insurance, refer to insurance company testing section.

Counseling: At a minimum, counseling in the form of written materials developed by the DHES must be given to you before you consent to have the HIV antibody test performed and additional written materials from DHES must be provided to you after you receive the test results from your health care provider or designee.

Voluntary and Anonymous Testing: Taking an HIV antibody test is voluntary; you do not have to take the test. If you prefer, anonymous testing in which your name is not known to those performing the test, is available at several locations established by the DHES in Montana. These locations can be obtained from the DHES, your local health department or calling 1-800-233-6668. (Refer to insurance section.)

Withdrawal of Consent: You may withdraw your consent from the HIV test at any time until the blood and/or urine lab specimen is collected.

Confidentiality: Your test result is a confidential medical record and is protected by Montana law, which states that medical information can be released only with your consent, or under conditions specified by the Uniform Health Care Act (Title 50, Chapter 16, Part 5, MCA) or by the Government Health Care Act (Title 50, Chapter 16, Part 6, MCA). When authorizing a health care provider to release information you may specify which part of your medical records you want released and to whom. Signing a medical information release consent form does not waive your legal rights.

Local Health Department and Insurance Company Testing: If the test is being performed as part of an application for insurance, results will be reported to the health care provider designated by you, if it is positive. A negative test may be obtained from your insurance company. (If there is no health care provider designated, a positive test, result may be reported to the local health department for post-test counseling.) A positive test result may have an effect on your ability to obtain insurance. Ask your insurance representative about who receives and has access to your HIV antibody test results.

Unconscious or Otherwise Mentally Incapacitated: If the patient is 1) unconscious or otherwise mentally incapacitated, 2) there is no legal guardian, 3) there are medical indications of an HIV-related condition, 4) the test is advisable in order to determine the proper course of treatment then the patient's next of kin (parent, adult child, grandparent, adult sibling, or legal spouse); or the patient's significant other (individual living in a current spousal relationship with another individual but who is not legally a spouse of that individual) may receive pretest counseling and provide written informed consent. If circumstances in 1-4 above exist and the patient is in a hospital, then the person designated in the patient's medical records may receive pretest counseling and provide written informed consent on behalf of the patient. If circumstances in 1-4 above exist and the patient is in a hospital, and none of the persons listed above are available; the health care faculty may within a reasonable time order a HIV test.

STATEMENT OF CONSENT: By signing below, I certify that:

(1) I have read and understand the above explanation of the HIV antibody test, including an explanation of the nature of the test, what the test results mean, counseling requirements, the test is voluntary and test results are confidential;
(2) I have received and read written pre-test counseling materials drafted by the DHES;
(3) I understand that anonymous testing, if I desire it, is available at one of the counseling/testing sites established by the DHES or elsewhere;
(4) I agree to have a sample of my blood or urine tested for the presence of the HIV antibody, and authorize

Name of Health Care Provider: _____

Address: _____

_____

to receive and inform me of the results of the test. Post-test counseling is to be given, at minimum in the form of written materials developed by the DHES.

(5) I understand that when tested for insurance purposes that a positive test result will be given to the designated health care provider (listed above). If desired, I can seek results of a negative test from the insurance company.
(6) I authorize Protective Life Insurance Company or its reinsurers to make a brief report of any personal health information to the MIB.

HIV ANTIBODY TEST

Materials provided by the Department of Health and Environmental Sciences - STATE OF MONTANA

BEFORE YOU TAKE THE HIV ANTIBODY TEST

THE HIV VIRUS

Human immunodeficiency virus (HIV) is the virus that causes Acquired Immune Deficiency Syndrome (AIDS). The virus injures your immune (infection-fighting) system. If your immune system becomes so weakened by the virus that you can't fight off other diseases on your own, you have developed AIDS.

THE HIV ANTIBODY TEST

When you have an HIV infection, your body produces antibodies. The HIV antibody test is a test for those antibodies. This test is voluntary. You do not have to take the test.

A **POSITIVE TEST** means that you are infected with HIV. You can pass the virus to other people through certain behaviors. A positive test doesn't mean you have AIDS.

A **NEGATIVE TEST** means that you probably don't have HIV infection. However, because it takes time for the body to make antibodies some people may have a negative test and still be infected with the virus. If the test is done between the time the virus enters your body and the time antibodies are made, the test will be negative. You would still be able to transmit the virus to others.

Even if you have a negative test, you can still get the virus.

HOW HIV IS SPREAD

HIV is not spread by common everyday contact, but by certain risky activities. These risky activities are called RISK BEHAVIORS. These behaviors involve passing semen, vaginal secretions, and/or blood from an infected person to someone else. You can get the virus when an infected person's semen, vaginal secretions, or blood enters your body. Open sores make it easier for the virus to enter someone's body. Having sexually transmitted diseases like herpes or syphilis could cause open sores. These sexually transmitted diseases are treatable. See your doctor or nearest health department.

A woman who is carrying HIV may transmit the virus to her unborn child. She may also transmit the virus through her milk to a nursing infant.

THESE ARE RISK BEHAVIORS:

Sexual Contacts

- penis in or around vagina
- penis in or around rectum
- tongue or mouth in or around rectum
- tongue or mouth in or around vagina

Sharing Needles or Syringes

Perinatal

- infected mother to unborn child

NOTE: Since blood and blood products used in transfusions have been tested for HIV antibodies since 1985, the risk of getting HIV infection through a blood transfusion is extremely low. There is no risk in donating blood.

HOW YOU CAN PROTECT YOURSELF

The virus is in the semen, vaginal secretions and/or blood of an infected person. You can protect yourself by shielding yourself from these body fluids.

RISK REDUCING BEHAVIORS
(Safest listed first)

- Don't have sex (abstinence)
- Have only one sex partner (monogamy); both must be HIV free
- Use latex condoms (rubbers)
- Don't share needles or syringes
- Use clean needles or syringes

The sex act is risky. Latex condoms reduce the risk. Natural fiber condoms do not reduce the risk. Latex condoms must be used throughout the sexual activity and you must use them in the right way. Don't be afraid to ask your pre-test counselor for demonstrations. The spermicide nonoxynol-9 is also recommended, but only when used with a condom. Do not use oil-based lubricants with a condom.

If you are a person who engages in risk behaviors, do not donate blood. Avoid pregnancy until you are certain you and your partner are HIV free.

REASONS TO TAKE THE TEST

The test will tell you if you have the virus. It will allow your doctor to begin treatment sooner. New drugs can help maintain your health if you have the virus. Risk reducing behaviors can prevent the spread of HIV.

CONCERNS ABOUT TAKING THE TEST

Finding out you have an HIV infection is frightening. You may develop AIDS. You may transmit the virus to someone else. Having the virus can affect your entire life. It is important to consider who is available to talk to you about your test. This is not information to share casually.

Free and anonymous testing is available at Counseling and Testing Sites. A list of Counseling and Testing Sites is available by calling the Montana AIDS HOTLINE at 1-800-233-6668, or your nearest health department.

CONFIDENTIALITY (PRIVACY)

The professionals performing and recording this test value the necessity of keeping your test results confidential. You may be concerned about the possibility of friends, employers, neighbors or your insurance company finding out your test result. Discuss confidentiality policies with your pre-test counselor to find out under what circumstances others might have access to the result.

PARTNER NOTIFICATION

If your test is positive, sex and needle-sharing partner(s) need to be notified and given the opportunity to receive counseling and testing. This is a very sensitive task. Public health personnel can either tell your partner(s) or help you in how to tell your partner(s). By law, public health personnel cannot tell your partner(s) the time or place of possible infection or your identity.

IMPORTANT NOTICE: REPLACEMENT OF LIFE INSURANCE OR ANNUITIES

This document must be signed by the applicant and the insurance producer/agent, if there is one, and a copy left with the applicant.

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A replacement occurs when a new life insurance policy or annuity contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing life insurance policy or annuity contract, or an existing life insurance policy or annuity contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A financed purchase occurs when the purchase of a new life insurance policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the life insurance policy values, including accumulated dividends, of an existing life insurance policy, to pay all or part of any premium or payment due on the new life insurance policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interests. You will pay acquisition costs and there may be surrender costs deducted from your life insurance policy or annuity contract. You may be able to make changes to your existing life insurance policy or annuity contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing life insurance policy and may reduce the amount paid upon the death of the insured.

We want you to understand the effects of replacements and ask that you answer the following questions and consider the questions on the back of this form.

1. Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer, or otherwise terminating your existing life insurance policy or annuity contract? ☐ Yes ☐ No

2. Are you considering using funds from your existing policies or annuity contracts to pay premiums due on the new life insurance policy or annuity contract? ☐ Yes ☐ No

If you answered "Yes" to either of the above questions, list each existing life insurance policy or annuity contract you are contemplating replacing (include the name of the insurer, the insured or annuitant, and the life insurance policy or annuity contract number if available) and whether each life insurance policy or annuity contract will be replaced or used as a source of financing:

	INSURER NAME	ANNUITY CONTRACT OR LIFE INSURANCE POLICY #	INSURED OR ANNUITANT	REPLACED (R) or FINANCING (F)
1.				
2.				
3.				

Make sure you know the facts. Contact your existing company or its insurance producer/agent for information about the old life insurance policy or annuity contract. If you request one, an in-force illustration, life insurance policy summary or available disclosure documents must be sent to you by the existing insurer. Ask for and keep all sales material used by the insurance producer/agent in the sales presentation. Be sure that you make an informed decision.

The existing life insurance policy or annuity contract is being replaced because _____.

I certify that the responses herein are, to the best of my knowledge, accurate:

Applicant/Proposed Insured's Signature	Printed Name	Date
Owner's Signature (if other than Applicant/Proposed Insured)	Printed Name	Date
Joint Owner's Signature	Printed Name	Date
Insurance Producer's/Agent Signature	Printed Name	Date

I do not want this notice read aloud to me _____ (Owner/Applicants must initial only if they do not want the notice read aloud.)

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing life insurance policy or annuity contract and the proposed life insurance policy or annuity contract. One way to do this is to ask the company or insurance producer/agent that sold you your existing life insurance policy or annuity contract to provide you with information concerning your existing life insurance policy or annuity contract. This may include an illustration of how your existing life insurance policy or annuity contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or annuity contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

PREMIUMS:

Are they affordable?
Could they change?
You're older - are premiums higher for the proposed new life insurance policy?
How long will you have to pay premiums on the new life insurance policy? On the old life insurance policy?

POLICY VALUES:

New policies usually take longer to build cash values and to pay dividends.
Acquisition costs for the old life insurance policy may have been paid; you will incur costs for the new one.
What surrender charges do the policies have?
What expense and sales charges will you pay on the new life insurance policy?
Does the new life insurance policy provide more insurance coverage?

INSURABILITY:

If your health has changed since you bought your old life insurance policy, the new one could cost you more, or you could be turned down.
You may need a medical exam for a new life insurance policy.
(Claims on most new policies for up to the first two years can be denied based on inaccurate statements. Suicide limitations may begin anew on the coverage.)

IF YOU ARE KEEPING THE OLD LIFE INSURANCE POLICY AS WELL AS THE NEW LIFE INSURANCE POLICY:

How are premiums for both policies being paid?
How will the premiums on your existing life insurance policy be affected?
Will a loan be deducted from death benefits?
What values from the old life insurance policy are being used to pay premiums?

IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

Will you pay surrender charges on your old annuity contract?
What are the interest rate guarantees for the new annuity contract?
Have you compared the annuity contract charges or other life insurance policy expenses?

OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

What are the tax consequences of buying the new life insurance policy?
Is this a tax-free exchange? (See your tax advisor.)
Is there a benefit from favorable "grandfathered" treatment of the old life insurance policy under the Federal Internal Revenue Tax Code?
Will the existing insurer be willing to modify the old life insurance policy?
How does the quality and financial stability of the new company compare with your existing company?

REQUIRED CALIFORNIA DISCLOSURE – For Universal Life Policies with No-Lapse Guarantees

This policy is guaranteed to stay in force for a specified number of years as long as you meet the requirements of the Policy, including the Minimum Monthly Premium provision found in the policy contract. This provision is also known as a no-lapse guarantee, and a general description of the provision is included in the Narrative Summary section of the Basic Illustration.

While this policy provides a no-lapse guarantee, it may provide nonforfeiture benefits, such as cash surrender values, which are less than those that would be provided if the guarantee were issued as a separate policy, such as a term policy. If a separate term policy has higher nonforfeiture benefits, the premiums for the separate policy might be higher than the premiums for the no-lapse guarantee provided in this policy. Therefore, when considering the purchase of this policy, you should compare the value of higher nonforfeiture benefits, such as cash surrender values, versus the premiums required to keep your insurance coverage in force.

REQUIRED SOUTH CAROLINA DISCLOSURE – For Universal Life Policies with No-Lapse Guarantees

If there is no policy debt or partial surrenders, this policy is guaranteed to stay in force during the no lapse period as long as you have paid the required minimum premiums. This guarantee could be provided by a separate policy (such as a term policy). However, the nonforfeiture benefits (such as cash surrender value) in this policy may be significantly less valuable than those provided by the separate policy. So, if you fail to pay a premium within a specified period of time from its due date or otherwise cause this policy to terminate early, the benefits paid to you upon termination could be much less than would customarily be paid if provided by the separate policy.

When thinking about purchasing this policy, you should consider the tradeoff you may be making between having significantly smaller nonforfeiture benefits (such as a cash surrender value) available to you upon surrender of the policy versus the reduction in premium, if any, you may receive for not having these benefits.
