### **HIV ANTIBODY TESTING CONSENT FORM**

The insurance company to which you have applied may request a blood, urine, or oral fluid sample from you for testing. One test will be to detect the presence of antibodies to the Human Immunodeficiency Virus (HIV). HIV is the virus which causes Acquired Immune Deficiency Syndrome (AIDS). The New Hampshire Unfair Insurance Trade Practices Act (RSA 417) provides for an insurance company to test for the presence of an antibody or antigen to HIV only upon your written consent. The results of this test may determine your eligibility to acquire insurance. By signing this form, you have consented to the HIV test and the reporting of the test results to the insurance company taking your application. Positive test results will not be disclosed except as authorized by you in writing. Negative and indeterminate (inconclusive) test results may be disclosed to reinsurers, contractually retained medical personnel and insurance affiliates or subsidiaries that are involved in necessary underwriting decisions regarding your application. The insurance company and any other party receiving the negative or indeterminate test results will maintain the results of your HIV antibody test as confidential.

If your test results indicate the presence of antibodies to HIV, or if your test results cannot be accurately determined, the insurance company will report a "nonspecific abnormality" to the Medical Information Bureau *or any similar entity, if the insurance company reports these test results to third parties.* The Medical Information Bureau contains the names and computerized medical records of insurance applicants nationally. The report will not identify you as having an abnormal HIV antibody test because many abnormalities are reported to the Bureau under the same classification.

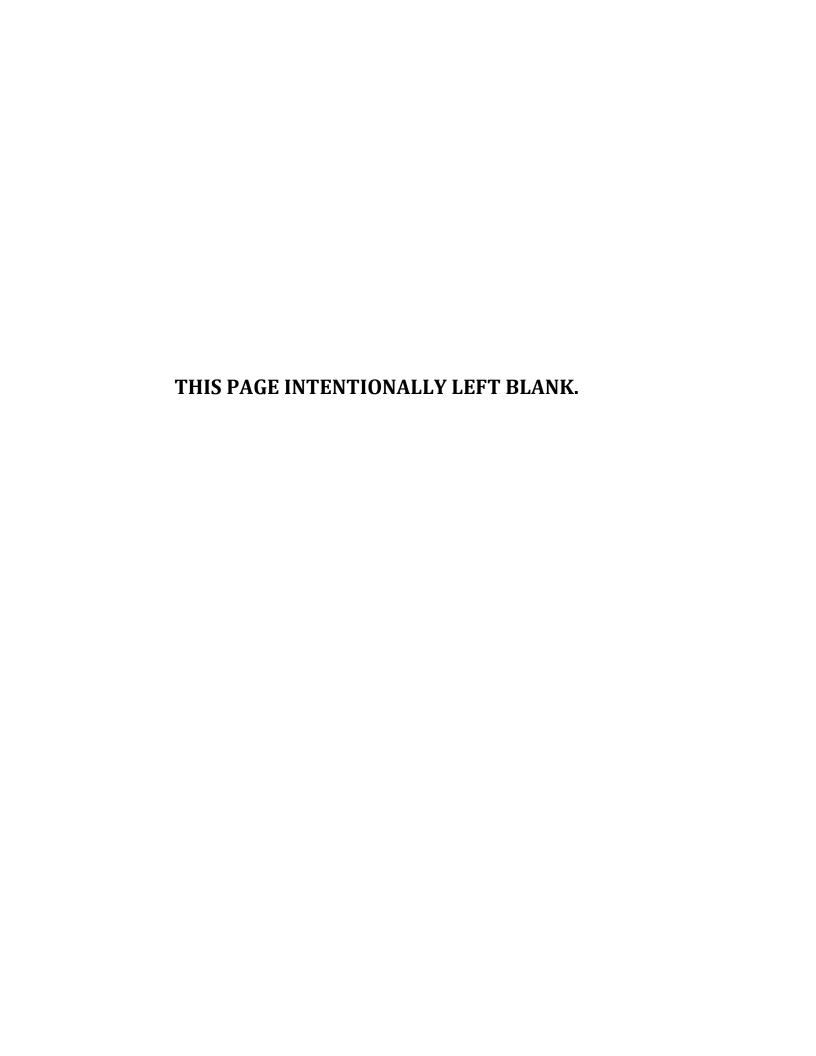

The HIV antibody test is extremely accurate. However, in rare instances the test may be positive in persons who are not infected with the virus. Additionally, the test may occasionally be negative in persons who are infected with HIV (a false negative). If your HIV antibody test is positive, it does not mean that you have AIDS. A positive test indicates that you have been infected with HIV. It also means that HIV is present in your body fluids (such as blood, semen, vaginal secretions) and that you could infect other people through sexual contact, by sharing intravenous needles, by having a baby, or by donating blood, semen, or body organs. Persons who have a positive HIV antibody test should see a physician as soon as possible. A negative test result indicates that no antibodies to the HIV virus were found. Absence of HIV antibodies does not mean that you have not been infected with the virus. Nor does absence of HIV antibodies mean that you are immune to the virus.

Public health authorities urge that everyone become educated about how to protect themselves from HIV infection. If you have questions, please consult your own physician or contact the Centers for Disease Control and Prevention at 1-800-232-4636 or visit their website at <a href="http://www.cdc.gov/hiv/default.html/">http://www.cdc.gov/hiv/default.html/</a>.

The insurance company will notify you if your test results are positive or if your results cannot be accurately determined. At your request, the company will also send your results to a physician or other person. You should request that your results be sent to your private physician so that he/she can interpret them for you.

In the event of a positive or indeterminate test result, I authorize disclosure to the following physician or other person or entity:

### **Understand What Life Insurance Is**

Life insurance pays a death benefit if you die while the policy is in effect, in exchange for premiums you pay before your death. You can use the death benefit to protect against financial hardships such as loss of your income, funeral expenses, medical or nursing care expenses, debt repayments, and child care costs after your death. You can get information from the NAIC InsureU Life Insurance website - www.insureuonline.org/insureu type life.htm

### If You Need Life Insurance, Decide How Much Coverage to Buy

How much life insurance to buy depends on the financial needs that will continue after your death. Examples include supporting your family, paying for child(ren)'s education, and paying off a mortgage. Some questions you may want to ask about your own needs include:

- Does anyone depend on me financially?
- How much of the family income do I provide?
- How will my family pay my final expenses and repay debts after my death?
- Do I want to leave money to charity or family?
- If I have life insurance through my employer, is it enough to meet my financial obligations?

The answers to these questions can help you decide how much coverage you need. An Insurance agent, financial advisor, or insurance company representative can help you evaluate your insurance needs and give you information about available policies.

#### If You Already Have Life Insurance, Assess Your Current Life Insurance Policy

It's important to compare your current policy with any new policy you might buy. Keep in mind that you may be able to change your current policy to get benefits you want. Also, know that any changes in your health may impact your ability to get a new policy or the premium you'll pay. Don't cancel your current policy until you get the new one.

Also, while you may have free or low-cost life insurance through your employer, the death benefit usually is less than you need. And if you leave the employer, you may not be able to take this coverage with you.

### **Compare the Different Types of Insurance Policies**

There are many types of life insurance policies. You should choose a policy with features that fit your individual needs. Some things to consider are:

- **Term Insurance vs. Cash Value Insurance.** Term insurance is intended to provide lower-cost coverage for a specific period of time ("a term"). If you want coverage for a longer period of time, such as for your lifetime, cash value insurance may be more cost effective. Most term policies don't build up cash values that you can use in the future.
- Renewable Term vs. Non-renewable Term. Most term life insurance coverage can be continued ("renewed") at the end of the term, even if your health has changed. If you renew a term policy, the new premiums are higher. Ask what the premiums will be before you renew the policy. Also ask if you'll lose the right to renew the policy at a certain age. A Non-renewable term policy can't be continued. You'll have to apply for a new policy if you still want coverage.

- Whole Life vs. Universal Life. Whole life and universal life insurance are two types of cash value insurance. A key difference between the two is how you pay for the coverage. You typically pay premiums for whole life insurance according to a set schedule. In a universal life policy, you can choose a flexible premium payment pattern as long as you pay enough to keep your policy in force.
- Variable Life vs. Non-variable Life. The investments you will choose (such as stock and bond funds) in a variable life policy directly impact your cash value. These policies have the greatest potential to build cash value but also the greatest risk of losing cash value. Non-variable life policies often have guaranteed minimums for some features (interest or cash value, for example) but not all. Non-variable life policies also have less potential to build cash value than variable policies.

#### Be Sure You Can Afford the Premium

Before you buy a life insurance policy, be sure you can pay the premiums. Can you afford the initial premium? If the premium increases later, will you still be able to afford it? The premiums for many life insurance policies are sensitive to changes in the company's investment earnings, claims costs, and other expenses. If those are worse than expected, you may have to pay a much higher premium. Ask what might be the highest premium you'd have to pay to keep your coverage.

### **Understand the Application Process**

You can apply for life insurance through life insurance agents, the mail, and online. In addition to basic information, such as your name, address, employer, job title, and date of birth, you'll be asked for more personal information. Depending on the type of policy, the insurer may require you to see a doctor, answer health-related questions, or have a medical professional come to your home or office to assess your health. Usually a policy that doesn't require detailed health information will cost more and provide less coverage than one that does.

It's important to tell the truth on the application. The insurance company will check your answers so review the application before you sign. If the insurance company discovers false statements on your application after it issues your policy, it could reduce or cancel your coverage.

### **Choose a Beneficiary**

A beneficiary is the person(s) or organization(s) you name to receive your life insurance policy's death benefit. You'll need to know the Social Security or tax identification number for all beneficiaries. Experts advise you not to name a minor child as a beneficiary. Insurance companies won't pay a minor. Instead, consider leaving the money to your estate or trust.

#### **Evaluate the Future of Your Policy**

Does your policy have a cash value? In some cash value policies, the values are low in the early years but build later on. In other policies the values build up gradually over the years. Most term policies have no cash value. Ask your insurance agent, financial advisor, or an insurance company representative for an illustration showing future values and benefits.

### After You Buy Life Insurance

# **Read Your Policy Carefully**

After you carefully read your policy, you should be able to answer the following important questions:

- Is your personal information correct?
- Do premiums or policy values vary from year to year?
- What part of the premium or policy value isn't guaranteed?
- How will the timing of money paid and received affect any interest the policy might earn?

Your insurance agent, financial advisor, or an insurance company representative can help you understand anything that isn't clear.

If you're not satisfied with your new policy, you can return it for a full refund within a certain period, usually 10 days after you receive it. The review period usually is stated on the first page of the policy.

#### **Review Your Life Insurance Program Every Few Years**

Review your policy with your insurance agent, financial advisor, or an insurance company representative every few years to keep up with changes in your policy and your needs.

- Have the premiums or benefits changed since your policy was issued?
- Do the death benefits still meet your needs?
- Do you need more or less coverage after life events, such as birth, adoption, marriage, job change, death, or divorce?

The insurance company can provide policy statements and illustrations to help with this review. As the policy owner, you can change beneficiaries at no cost. Be sure to review your beneficiaries every few years, especially after major life events that affect your life insurance needs.

## IMPORTANT NOTICE: REPLACEMENT OF LIFE INSURANCE OR ANNUITIES

This document must be signed by the applicant and the insurance producer/agent, if there is one, and a copy left with the applicant.

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A replacement occurs when a new life insurance policy or annuity contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing life insurance policy or annuity contract, or an existing life insurance policy or annuity contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A financed purchase occurs when the purchase of a new life insurance policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the life insurance policy values, including accumulated dividends, of an existing life insurance policy, to pay all or part of any premium or payment due on the new life insurance policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interests. You will pay acquisition costs and there may be surrender costs deducted from your life insurance policy or annuity contract. You may be able to make changes to your existing life insurance policy or annuity contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing life insurance policy and may reduce the amount paid upon the death of the insured.

We want you to understand the effects of replacements and ask that you answer the following questions and consider the questions on the back of

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing life insurance policy or annuity contract and the proposed life insurance policy or annuity contract. One way to do this is to ask the company or insurance producer/agent that sold you your existing life insurance policy or annuity contract to provide you with information concerning your existing life insurance policy or annuity contract. This may include an illustration of how your existing life insurance policy or annuity contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or annuity contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

#### PREMIUMS:

Are they affordable?

Could they change?

You're older - are premiums higher for the proposed new life insurance policy?

How long will you have to pay premiums on the new life insurance policy? On the old life insurance policy?

#### **POLICY VALUES:**

New policies usually take longer to build cash values and to pay dividends.

Acquisition costs for the old life insurance policy may have been paid; you will incur costs for the new one.

What surrender charges do the policies have?

What expense and sales charges will you pay on the new life insurance policy?

Does the new life insurance policy provide more insurance coverage?

## **INSURABILITY:**

If your health has changed since you bought your old life insurance policy, the new one could cost you more, or you could be turned down.

You may need a medical exam for a new life insurance policy.

(Claims on most new policies for up to the first two years can be denied based on inaccurate statements. Suicide limitations may begin anew on the coverage.)

#### IF YOU ARE KEEPING THE OLD LIFE INSURANCE POLICY AS WELL AS THE NEW LIFE INSURANCE POLICY:

How are premiums for both policies being paid?

How will the premiums on your existing life insurance policy be affected?

Will a loan be deducted from death benefits?

What values from the old life insurance policy are being used to pay premiums?

## IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

Will you pay surrender charges on your old annuity contract?

What are the interest rate guarantees for the new annuity contract?

Have you compared the annuity contract charges or other life insurance policy expenses?

#### OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

What are the tax consequences of buying the new life insurance policy?

Is this a tax-free exchange? (See your tax advisor.)

Is there a benefit from favorable "grandfathered" treatment of the old life insurance policy under the Federal Internal Revenue Tax Code?

Will the existing insurer be willing to modify the old life insurance policy?

How does the quality and financial stability of the new company compare with your existing company?

## REQUIRED CALIFORNIA DISCLOSURE - For Universal Life Policies with No-Lapse Guarantees

This policy is guaranteed to stay in force for a specified number of years as long as you meet the requirements of the Policy, including the Minimum Monthly Premium provision found in the policy contract. This provision is also known as a no-lapse guarantee, and a general description of the provision is included in the Narrative Summary section of the Basic Illustration.

While this policy provides a no-lapse guarantee, it may provide nonforfeiture benefits, such as cash surrender values, which are less than those that would be provided if the guarantee were issued as a separate policy, such as a term policy. If a separate term policy has higher nonforfeiture benefits, the premiums for the separate policy might be higher than the premiums for the no-lapse guarantee provided in this policy. Therefore, when considering the purchase of this policy, you should compare the value of higher nonforfeiture benefits, such as cash surrender values, versus the premiums required to keep your insurance coverage in force.

#### REQUIRED SOUTH CAROLINA DISCLOSURE - For Universal Life Policies with No-Lapse Guarantees

If there is no policy debt or partial surrenders, this policy is guaranteed to stay in force during the no lapse period as long as you have paid the required minimum premiums. This guarantee could be provided by a separate policy (such as a term policy). However, the nonforfeiture benefits (such as cash surrender value) in this policy may be significantly less valuable than those provided by the separate policy. So, if you fail to pay a premium within a specified period of time from its due date or otherwise cause this policy to terminate early, the benefits paid to you upon termination could be much less than would customarily be paid if provided by the separate policy.

When thinking about purchasing this policy, you should consider the tradeoff you may be making between having significantly smaller nonforfeiture benefits (such as a cash surrender value) available to you upon surrender of the policy versus the reduction in premium, if any, you may receive for not having these benefits.
