AUTHORIZATION TO OBTAIN AND DISCLOSE INFORMATION

This Authorization to Obtain and Disclose Information complies with the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") as related to Life Insurance.

USE OF MEDICAL, NON-HEALTH AND NON-MEDICAL INFORMATION

I (we) authorize Protective Life Insurance Company (Protective Life) and its reinsurers to obtain, directly or through designated third parties, and to use any information about or relating to me (us) that may affect my (our) insurability. Protective Life and its reinsurers, Life Insurance Representative(s) or regional sales office representing me on my (our) application for insurance may:

- a. obtain and use health and medical information from all dates of service, including but not limited to, medical records, prescription drugs, chart notes, electrocardiograms (EKG), and information about the diagnoses and/or treatments relating to Human Immunodeficiency Virus (HIV) infection or Acquired Immunodeficiency Syndrome (AIDS), sexually transmitted diseases, drug use, alcohol use, nicotine or tobacco use, physical and mental diseases and illnesses, and psychiatric disorders (excluding psychotherapy notes);
- b. obtain and use non-health and non-medical information, including but not limited to financial information, credit reports, consumer reports, driving record, criminal record, character, general reputation, personal characteristics or behavioral and lifestyle factors and information about avocations and aviation activity;
- c. use all of this information to evaluate an application for insurance, a claim for insurance benefits, or both;
- d. use any information relating to communicable diseases (e.g., hepatitis A, measles, influenza, tuberculosis) and other risk factors relating to me or to my spouse or life partner to evaluate an application for insurance on either me or my spouse or life partner.

RELEASE AND DISCLOSE INFORMATION FROM THIRD PARTIES

I (we) authorize the following persons and organizations to release and disclose the information described in the **USE OF MEDICAL, NON-HEALTH AND NON-MEDICAL INFORMATION** section to Protective Life, directly through the following designated third parties or its representative(s) acting on its behalf:

- a. my (our) doctor(s); medical practitioners; pharmacists and Pharmacy Benefit Managers;
- b. medical and related facilities, including hospitals, clinics, facilities run by the Veteran's Administration, Kaiser Permanente, The Cleveland Clinic Foundation including all satellite facilities and The Mayo Clinic;
- c. insurers; reinsurers;
- d. my (our) current and previous employers;
- e. MIB, LLC (**MIB**); and commercial consumer reporting agencies (**CRA**).

All of these persons and organizations other than **MIB** may release the information described above to a **CRA** acting for Protective Life. **MIB** may not release the information described in the **USE OF MEDICAL, NON-HEALTH AND NON-MEDICAL INFORMATION** section to a **CRA**.

TESTING OF BLOOD, ORAL FLUIDS AND URINE

I (we) authorize Protective Life to draw and test my (our) blood, and/or oral fluids, and urine as necessary to underwrite my (our) application for insurance. These tests may include, but are not limited to:

- a. tests for cholesterol and related blood lipids, diabetes, liver or kidney disorders, immune disorders (other than HIV/AIDS, see **SPECIAL REQUIREMENT FOR HIV/AIDS TESTING** section).
- b. tests for the presence of drugs, nicotine, or their metabolites.

This authorization does not include genetic testing. Unless otherwise required by law or regulation, Protective Life may, but is not obligated to, release any of these test results directly to me or to my spouse or life partner.

RELEASE OF MEDICAL, NON-HEALTH, NON-MEDICAL AND TESTING INFORMATION

I (we) authorize Protective Life to release and disclose the information described in the **USE OF MEDICAL, NON-HEALTH AND NON-MEDICAL INFORMATION** section and the **TESTING OF BLOOD, ORAL FLUIDS AND URINE** section:

- a. to its affiliates, its reinsurers, persons or organization providing services relating to insurance underwriting for Protective Life, **MIB** and as otherwise required by law.
- b. to release and disclose the information to other duly licensed life insurers if I (we) have applied or apply to the other insurers for insurance.
- c. to its reinsurers, to make a brief report of my personal health information to **MIB**.
- d. to the Life Insurance Representative(s) representing me to duly licensed specific life insurers for the purpose of applying for life insurance if my (our) application with Protective Life is declined or if Protective Life is unable to offer coverage at an acceptable rate.
- e. to the Life Insurance Representative(s) and its staff, affiliated companies and/or entities, insurance companies and their re-insurers representing me on my (our) application for life insurance.

SPECIAL REQUIREMENT FOR HIV/AIDS TESTING

If Protective Life intends to test for the presence of antibodies to the Human Immunodeficiency Virus (HIV), which is the virus that has been associated with Acquired Immune Deficiency Syndrome (AIDS), Protective Life may require a separate authorization. I (we) hereby authorize Protective Life:

- a. to obtain and use the results of any HIV tests that I (we) separately authorize.
- b. (if permitted by law) to disclose the results of any tests to its reinsurers and MIB.

GENERAL INFORMATION

- a. This authorization shall be valid for 24 months from the Date of Authorization shown below, or for the time limit, if any, permitted by applicable law in the state where the policy is delivered or issued for delivery, whichever period is shorter, or, in the event of a claim for benefits, for the duration of such claim.
- b. During the evaluation of my (our) insurance application, I (we) understand that I (we) have the right to revoke the authorizations in the previous sections (above) by writing to Protective Life at P.O. Box 830619 • Birmingham, Alabama 35283-0619. If this authorization is revoked, this would result in the file being closed and no coverage provided.
- c. I understand I do not have to sign this authorization in order to obtain **health care benefits (treatment, payment or enrollment)**.
- d. I (we) understand that any information about me (us) that is disclosed pursuant to this authorization may be subject to re-disclosure and no longer covered by certain federal rules governing privacy and confidentiality of health information. The information contained in these medical and financial records will be held in confidence and may be used only for the purpose of the procurement, or underwriting for the possible procurement or the evaluation of life, health, long term care, or other insurance products.
- e. I (we) understand that my (our) personal information, including my (our) protected health information disclosed under this authorization will be incorporated into and made a part of any life and/or disability insurance policy(ies) issued by the Company and that the policy(ies) will be delivered to the policy owner.
- f. *I acknowledge that any agreements I have made to restrict my protected health information do not apply to this authorization and I instruct any physician, health care professional, hospital, clinic, medical facility, or other health care provider to release and disclose my entire medical record without restriction. Any modifications to this authorization may preclude Protective Life's ability to process this application.*

AUTHORIZATIONS AND INVESTIGATIVE CONSUMER REPORT

- I (we) have been given a copy of this **Authorization to Obtain and Disclose Information** along with the **Description of Information Practices**.
- I (we) would like to be interviewed if an investigative consumer report will be made. (Please refer to the **Description of Information Practices** for additional information regarding the interview for an **Investigative Consumer Report**.)

THIS AUTHORIZATION MUST BE SIGNED WITHOUT MODIFICATION AND RETURNED WITH THE APPLICATION BEFORE PROCESSING.

HIV TEST - INFORMED CONSENT FORM

THIS FORM MUST BE READ ALOUD TO THE APPLICANT PRIOR TO IT BEING SIGNED.

BACKGROUND

Acquired Immunodeficiency Syndrome (AIDS) is a life-threatening disorder of the immune system. It is caused by a virus called HIV. The virus is spread by sexual contact with an infected person, by exposure to infected blood (as in needle sharing during intravenous drug use or, rarely, as a result of a blood transfusion), or from an infected mother to her newborn infant.

To evaluate your eligibility for insurance or insurance benefits, it is requested that you provide a sample of your body fluid or other specimen for testing and analysis. One of the tests is to determine the presence of antibodies to the HIV virus. This test is actually a series of tests performed upon your body fluid or other specimen sample by a medically accepted procedure which is extremely reliable. The testing will be performed by a licensed laboratory.

DISCLOSURE OF TEST RESULTS

All test results will be treated confidentially. The results of the test will be reported to the insurer named above. The results will also be reported to its affiliates, reinsurers, or contractors in connection with insurance you have or for which you have applied.

In addition, if your HIV antibody test is abnormal (positive), the insurer may request an additional sample as necessary. If the insurer is a member of the MIB, LLC (MIB) and you choose to decline that request, the insurer will report to MIB a generic code which specifies only that a test has been ordered and not received. If the final test result for HIV antibodies is other than normal, a generic code signifying a non-specific blood abnormality may be made known to the MIB as described in the notice given to you at the time of application. The MIB is a membership organization of life and health insurance companies which operates as an information exchange on behalf of its members. If you apply to another MIB member company for life or health insurance coverage or make a claim for benefits to such a company, the MIB, upon request, will supply the information in its file to that member. The insurer will make a brief report of any personal health information to the MIB. The fact that the test has been done and the results of the test will not be otherwise disclosed except as may be required by law or as authorized by you.

TEST RESULTS

Positive Test Results. While positive test results do not necessarily mean that you have AIDS, they do mean that you are at serious risk of developing AIDS or AIDS-related conditions. You may be infected with HIV and infectious to others. You should seek medical follow-up with your personal health care provider. The insurer will contact you for the name of the health care provider to whom you may want your test results disclosed.

Test Accuracy. HIV test results are not 100% accurate. Possible errors include:

- (a) False positives: The test gives a positive result, even though you are not infected. This happens only rarely and is more common in persons who have not engaged in high risk behaviors. Retesting should be done to help confirm the validity of a positive test.
- (b) False negatives: The test gives a negative result, even though you are infected with HIV. This is most likely to happen in recently infected persons; it takes at least 4 to 12 weeks for a positive test result to develop after a person is infected, and may take as long as 6 to 12 months.

RISK FROM HAVING THE TESTS

A positive test result may cause you significant anxiety. It also will adversely affect your insurance application and may result in uninsurability for life, health, or disability insurance for which you may apply in the future.

YOU HAVE THE RIGHT TO ASK QUESTIONS AND OBTAIN FURTHER INFORMATION

If you have any questions relating to AIDS, the HIV test and the consequences of being tested or not being tested, you are entitled to answers to those questions by the person offering the test or other knowledgeable person before you agree to testing.

OTHER SOURCES OF INFORMATION

For more information about AIDS and the HIV test you may call the Maine Bureau of Health at (207)287-3747. You may also call the Maine AIDS Hotline at 1-800-851-AIDS.

I have read and I understand this Notice of AIDS Virus (HIV) Antibody Testing and Consent for Testing. For my information, I have been given written material about AIDS. I voluntarily consent to the withdrawal of body fluid or other specimen from me by needle, the testing of my body fluid or other specimen for HIV antibodies, and the disclosure of the test results as described above.

ELECTION OF POST-TEST COUNSELING

Professional (or voluntary) Post-Test Counseling is available to all proposed insureds that have been requested to undergo blood tests for HIV antibodies. HIV has been identified as the causative agent of AIDS (Acquired Immunodeficiency Syndrome). Counseling shall be provided by a professional (or qualified voluntary) counselor selected by the proposed insured, whether or not Voluntary Post-test Counseling is available. Where both Voluntary and Professional Post-test Counseling are available, the proposed insured may elect to have either Voluntary or Professional Counseling. If such counseling is sought, Protective Life Insurance Company will pay the usual and customary charge for one (1) session of Professional or Voluntary Post-test Counseling received by the proposed insured.

I wish to receive post-test counseling.

FROM AMERICAN RED CROSS PAMPHLET - HIV & AIDS: GET THE FACTS

HIV & AIDS

AIDS is one of the leading causes of death for Americans between the ages of 25 and 44, according to the Centers for Disease Control and Prevention (CDC). Many of the people who are infected with HIV today did not believe they were at risk.

HIV is serious. HIV is deadly. HIV will be with us for a long time. You don't have to get HIV if you follow some simple rules of prevention. The following information about HIV infection and AIDS will help you and those you love learn to protect yourselves.

FACT: AIDS is caused by a virus called HIV.

HIV stands for human immunodeficiency virus. It is the virus that causes AIDS – acquired immunodeficiency syndrome. HIV is spread from one person to another through sex and blood-to-blood contact. When someone becomes infected with HIV, the virus attacks that person's immune system (the system that defends the body from illness). A person develops AIDS when his or her immune system becomes so damaged that it can no longer fight off diseases and infections. These diseases and infections can be fatal. Most people get infected with HIV by having unprotected sex or sharing needles with someone who already has the virus. HIV does not discriminate. Anyone can get HIV.

FACT: People infected with HIV may look and feel healthy for a long time.

It may take up to 10 years for people who are infected with HIV to develop AIDS. They may look and feel healthy for years after becoming infected. They may not know they are infected. Even if they don't look or feel sick, they can infect others.

FACT: When signs of illness do appear, they vary from person to person.

Some people get fevers or diarrhea. Most people get swollen glands that won't clear up. Many lose weight for no apparent reason. This is because the virus harms the body's defenses (immune system). When people develop AIDS, they may have illnesses that healthy people would usually resist. Only a blood test can tell if someone is infected with HIV. Only a doctor can diagnose AIDS.

FACT: You cannot "catch" HIV like you do a cold or flu.

Unlike many other viruses, HIV is not spread through the air or water. HIV is not spread through everyday casual contact.

You cannot get HIV from – handshakes, hugs, coughs or sneezes, sweat or tears, mosquitoes or other insects, pets, eating food prepared by someone else, being around an infected person. **Or from using** – swimming pools, toilet seats, phones or computers, straws, spoons, or cups, drinking fountains.

FACT: Most people with HIV or AIDS got the virus by having sex or sharing needles with someone who was already infected – even once may put you at risk.

These are the most common ways in which HIV is spread: Having vaginal, anal, or oral sex without a latex condom, with someone who has HIV. Sharing needles or syringes with someone who is infected with HIV. From an infected mother to her baby during pregnancy, childbirth, or, rarely, through breast feeding.

FACT: You can protect yourself from the virus.

The best ways to prevent HIV infection are: Do not have sex. You can get infected from even one sexual experience. Avoid contact with another person's blood, semen, or vaginal fluid. Do not shoot drugs. Never share any kind of needle or syringe. Any object that breaks the skin should not be shared. Do not use drugs or alcohol. They can keep you from thinking clearly and cause you to make unwise decisions.

If you are sexually active – have sex only with a partner who is not infected, who has sex only with you, and who does not shoot drugs or share needles and syringes. Keep in mind that it is difficult to know these things about another person. **Always use a latex condom** for any kind of sex because it's possible you won't know if your partner is infected. **Make smart decisions.** Whether you have sex and whether you use condoms are decisions you can make over and over. You can choose not to have sex, even if you have had sex in the past. You can choose to use condoms even if you have not used condoms in the past. Use what you have learned to make decisions about sex that are good for you and for your partner. Get the **latest information** from the CDC.

FACT: Latex condoms (rubbers) can help prevent HIV infection.

Latex condoms can help lower your risk of HIV infection during sex, as well as your risk of contracting other sexually transmitted diseases (STDs). Latex condoms act as an effective barrier to diseases. But condoms are not foolproof. They don't completely eliminate the risk of becoming infected because they can break, tear, or slip off. They must be put on before genital contact. And they must be used the right way – from start to finish – every time for vaginal, anal, and oral sex. **Find out how.**

Birth control pills and diaphragms will not protect you or your partner from HIV or other STDs.

FACT: It is impossible for a donor to get HIV from giving blood or plasma.

In the United States, every piece of equipment (needles, tubing, containers) used to draw blood is sterile and brand new. It is used only once, and then destroyed. You cannot get HIV from giving blood.

FACT: The chances of getting HIV from a blood transfusion in the United States are now extremely low.

Early in the AIDS epidemic, some people became infected with HIV through infected blood in the nations' blood supply. Since then, the risk of getting an HIV-contaminated transfusion has dropped dramatically and is now estimated to be two in one million units of blood. The Red Cross and other blood banks use a combination of ways to protect the blood supply, including –

Screening of donors. Since 1983, those who want to give blood are not allowed to give blood if they indicate they are at risk of being infected with HIV.

Testing donated blood and plasma for signs of HIV since 1985, when tests became available. If a test shows the presence of HIV, that blood is destroyed. Over time, testing methods have greatly improved. However, testing cannot completely eliminate the risk of infected blood. If someone donates blood or plasma soon after becoming infected, current tests may not always be able to detect the presence of the virus.

FACT: There are blood tests for HIV.

If you think you may be infected with HIV, you may want to consider taking an antibody blood test and getting counseling both before and after being tested. These blood tests look for the presence of HIV antibodies in the blood as signs of the virus. The body almost always develops antibodies to fight off viruses that enter the blood stream.

The “window period” affects test results..... Current blood tests are over 99 percent accurate. However, there is usually a window period from a few weeks to a few months after a person becomes infected for enough antibodies to develop to be detected in a blood test. For this reason, if someone was infected recently, the test may not yet show that the person is infected. Contact your local public health department, AIDS service organization, Red Cross chapter, or doctor's office for more information about testing and HIV counseling.

FACT: So far, there is no vaccine for HIV or a cure for AIDS.

Some medicines that are now available help to treat the symptoms of AIDS patients and allow them to live more comfortably. None of these medicines can keep a person from becoming infected with HIV. None of the treatments can cure AIDS. But people can prevent HIV infection by learning the facts and acting on them. Find out more about **HIV/AIDS treatment.**

FACT: You can help fight the battle against HIV and AIDS by being a volunteer.

Volunteers are always needed. They can answer AIDS hotlines and help teach others about HIV and AIDS. They can help people living with AIDS by shopping for them or bringing meals to their homes. They can help raise funds to fight this epidemic. Call **your local Red Cross chapter** or AIDS service organization to learn how you can help.

To learn more facts about HIV and AIDS, order the American Red Cross **HIV/AIDS Facts Book**.

Further information about HIV/AIDS can be obtained from your Red Cross chapter, local or state health department, other community agencies, the National AIDS Network agency, or the National AIDS Hot Line. The Hot Line number is 1-800-342-AIDS.

DESCRIPTION OF INFORMATION PRACTICES

(Including MIB, LLC Notice and Fair Credit Reporting Act Notice)

DISCLOSURE OF INFORMATION

In considering your application for insurance, information from various sources must be considered. These include the results of your physical examination, if required, and any reports Protective Life may receive from doctors and hospitals who have attended you.

Information regarding your insurability will be treated as confidential. Protective Life, or its reinsurers, may, however, make a brief report of any personal health information thereon to the MIB, LLC ("MIB"), which operates an information exchange on behalf of insurance companies that are members of MIB Group, Inc. If you apply to another MIB member company for life or health insurance coverage or a claim for benefits is submitted to such a company, MIB, upon request, will supply such company with the information about you in its file.

Upon receipt of a request from you MIB will arrange disclosure of any information in your file. Please contact MIB at 866-692-6901 or go to its website at www.mib.com to request disclosure online. If you question the accuracy of the information in MIB's file, you may contact MIB and seek a correction in accordance with the procedures set forth in the Federal Fair Credit Reporting Act. The address of MIB's information office is 50 Braintree Hill Park, Suite 400, Braintree, Massachusetts 02184-8734.

Protective Life, or its reinsurers, may also release information from its file to other insurance companies to whom you may apply for life or health insurance, or to whom a claim for benefits may be submitted. Information for consumers about MIB may be obtained on its website at www.mib.com.

INVESTIGATIVE CONSUMER REPORT

Furthermore, as part of our procedures for processing your insurance application, an investigative consumer report may be prepared by one or more of the commercial agencies offering this service whereby information is obtained through personal interviews with your neighbors, friends, or others with whom you are acquainted. This inquiry includes information as to your insurance risk score, character, general reputation, personal characteristics or behavioral and lifestyle factors, except as may be related directly or indirectly to your sexual orientation. You have the right to be personally interviewed if we order an investigative consumer report. You also have the right to receive a copy of the report by making a written request to Protective Life, within a reasonable period of time, to receive additional detailed information about the nature and scope of this investigation.

YOU CAN REVIEW AND CORRECT YOUR INFORMATION

As a general practice, we will not disclose personal or privileged information about you to anyone else without your consent, unless a legitimate business need exists or disclosure is required or permitted by law. You are entitled, upon request, to receive a more detailed statement of our information practices. You also have the right to access the personal information about you that we have in our records. You may see a copy of the information, or we will send it to you, whichever you prefer. You also have the right to request correction of personal information we may have about you which you think is wrong. To exercise these rights, please write to us at the address appearing at the end of this notice.

Ask our agent/producer for assistance or call or write us at Protective Life Insurance Company, Attention: New Business, P.O. Box 830619, Birmingham, Alabama 35283-0619. Telephone: 800-366-9378

THIS NOTICE MUST BE GIVEN TO THE PROPOSED INSURED

AGENT/PRODUCER COMPENSATION DISCLOSURE

Agents/Producers receive compensation from an insurer or third party, which may differ depending upon the product or insurer. Additional compensation may be received by the Agent/Producer based on other factors including premium volume placed with the company and loss or claim experience.
