ELECTION OF POST-TEST COUNSELING

Professional (or voluntary) Post-Test Counseling is available to all proposed insureds that have been requested to undergo blood tests for HIV antibodies. HIV has been identified as the causative agent of AIDS (Acquired Immunodeficiency Syndrome). Counseling shall be provided by a professional (or qualified voluntary) counselor selected by the proposed insured, whether or not Voluntary Post-test Counseling is available. Where both Voluntary and Professional Post-test Counseling are available, the proposed insured may elect to have either Voluntary or Professional Counseling. If such counseling is sought, Protective Life Insurance Company will pay the usual and customary charge for one (1) session of Professional or Voluntary Post-test Counseling received by the proposed insured.

I wish to receive post-test counseling.

Name of Proposed Insured (Print)

Signature of Proposed Insured

Date

RELEASE OF TEST RESULTS TO HEALTHCARE PROVIDER:

In the event of positive or indeterminate test results and in the event that the proposed insured has not designated a health care provider to receive test results, Protective Life Insurance Company shall provide written notification to the proposed insured that an abnormal test result has been obtained, recommend that a health care provider be authorized to receive test results, and recommend the proposed insured consult that provider.
